repeat

/ˈkɑːnsəntreɪt/

Afaq Language Center

concentrate

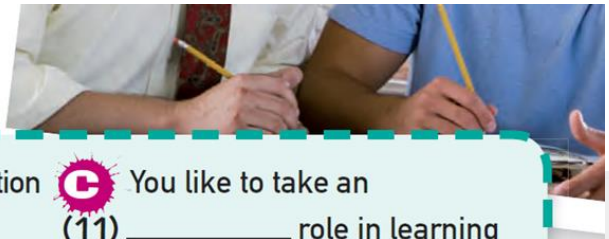

to think very carefully about something that you are doing

Be quiet – let me concentrate on my homework.

How can learning styles make learning easier?

12.2 Listen and complete the sentences.

A You like to see (1) demonstrations, diagrams, charts, and other visual aids in the classroom. You enjoy taking (2) _____ and using (3) _____ to highlight key information. If you draw (4) _____ of your notes and create (5) _____ of processes or events, you will remember things better. Always write down explanations and instructions as soon as you hear them.

B You don't remember information well until you have actually (6) _____ to it. For you, listening is more important than (7) _____. If you listen to music while you study, it will distract you and you won't concentrate. When you travel to a new place, you will find it easier to remember (8) _____ if someone tells you before you go. This will be more (9) _____ to you than following a map. If you listen to (10) _____ before you take an exam, you'll remember things

C You like to take an (11) _____ role in learning and enjoy activities like role-playing and sports. You remember things best after you've (12) _____ them. You don't understand things as well if you only read about them. You're probably the kind of person who talks with your hands a lot! You like to study in (13) _____ because you enjoy group (14) _____. When you study, it will help if you take short (15) _____.

Read the paragraphs and try to guess what the missing words might be. Share your guesses with your partners.

LISTENING

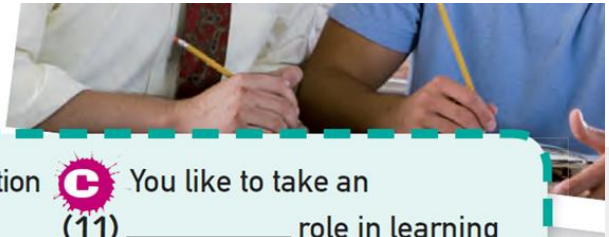

5 12.2 Listen and complete the sentences.

A You like to see (1) demonstrations, diagrams, charts, and other visual aids in the classroom. You enjoy taking (2) _____ and using (3) _____ to highlight key information. If you draw (4) _____ of your notes and create (5) _____ of processes or events, you will remember things better. Always write down explanations and instructions as soon as you hear them.

B You don't remember information well until you have actually (6) _____ to it. For you, listening is more important than (7) _____. If you listen to music while you study, it will distract you and you won't concentrate. When you travel to a new place, you will find it easier to remember (8) _____ if someone tells you before you go. This will be more (9) _____ to you than following a map. If you listen to (10) _____ before you take an exam, you'll remember things better, too.

C You like to take an (11) _____ role in learning and enjoy activities like role-playing and sports. You remember things best after you've (12) _____ them. You don't understand things as well if you only read about them. You're probably the kind of person who talks with your hands a lot! You like to study in (13) _____ because you enjoy group (14) _____. When you study, it will help if you take short (15) _____.

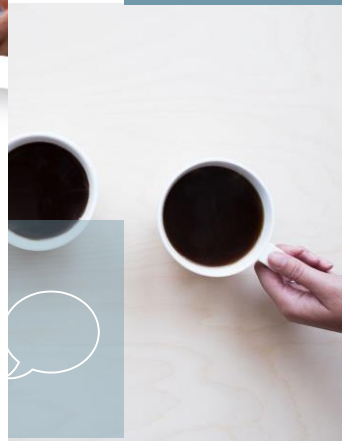

Listen again and check your answers. Match the texts with the learning styles – auditory, tactile, or visual.

A You like to see (1) demonstrations, diagrams, charts, and other visual aids in the classroom. You enjoy taking (2) _____ and using (3) _____ to highlight key information. If you draw (4) _____ of your notes and create (5) _____ of processes or events, you will remember things better. Always write down explanations and instructions as soon as you hear them.

Work in groups. Find out how many other students have the same learning styles as you.

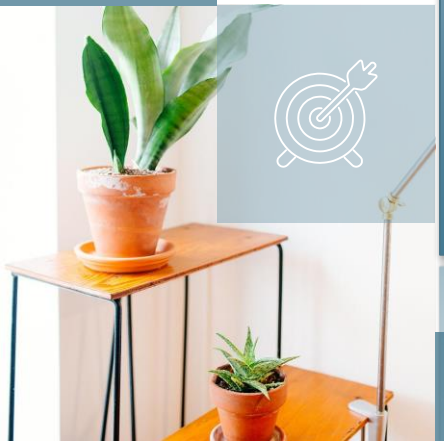

- Work in pairs. Work with someone who has different learning style from you and suggest useful ways to learn vocabulary and grammar.
- Then compare your answers with other pairs and make a list of ideas that you can use.

- *Let's discuss the interesting ideas that you heard while your were practicing.*
- *Do you think that any of your ideas are really useful? Which one? Why?*
- *Is it possible to change your learning style? Why? Why not?*
- *What is the most wonderful fact that your learned today?*
