These three students wrote about what they think the Earth will be like in one hundred years.

Read the paragraphs and answer the following questions.

Lizz **Toby** **Pippa**

1. Who believes there will be diseases in the future?
2. Who thinks everyone will be happy?
3. Who believes there won't be cold winters or hot summers?

Our houses will be very different. They won't be made of bricks. They will be made of a special material. They won't be hot in the summer or cold in the winter. They won't be expensive to keep. They will get their electricity from the sun and the wind.
Liz

Food will be very interesting. Scientists will find new food. It will be very tasty and there will be enough for everyone on the planet. Everyone will be very happy!
Toby

There will still be diseases, but there won't be many dangerous diseases. Everyone will take a lot of medicine to protect themselves. The doctors will have a lot of new equipment to help themselves. We will live until we are 150 years old!
