Vocabulary

Unit3 – Lesson1

Page30

To the teacher

At the end of the lesson, your students must have achieved all the targets below.
During the unit, plan your productive tasks to cover them.

3 HAVE YOU SEEN A DOCTOR?

LEARNING GOALS

In this unit, you

- describe how you feel and ask for advice
- describe injuries and report advice
- talk about medical research
- read about the pros and cons of an issue
- write a summary

Elicit some sentences from your students about the picture. Ask your students to talk about the questions.

GET STARTED

A Look at the photo. What's going on?

B Now read Gina's message. What is she worried about? Why?

GINA CLARK

@GinaC

A lot of people in my office have the flu. I have so much work to do I can't get sick now.

Have the Ss look at the graph and nominate them to answer the questions in class.

1 VOCABULARY Flu symptoms

GINA CLARK
@GinaC
Not feeling well today. Woke up with a sore throat and a headache.

A Look at the poster. What are some common flu symptoms? What advice does the poster give?

Know Your **Flu Symptoms**

How do you know if you have the flu?

Do you feel…

weak and **fatigued**,

nauseous,

dizzy,

and/or all **stuffed-up**?

Do you have…

a fever,

the chills,

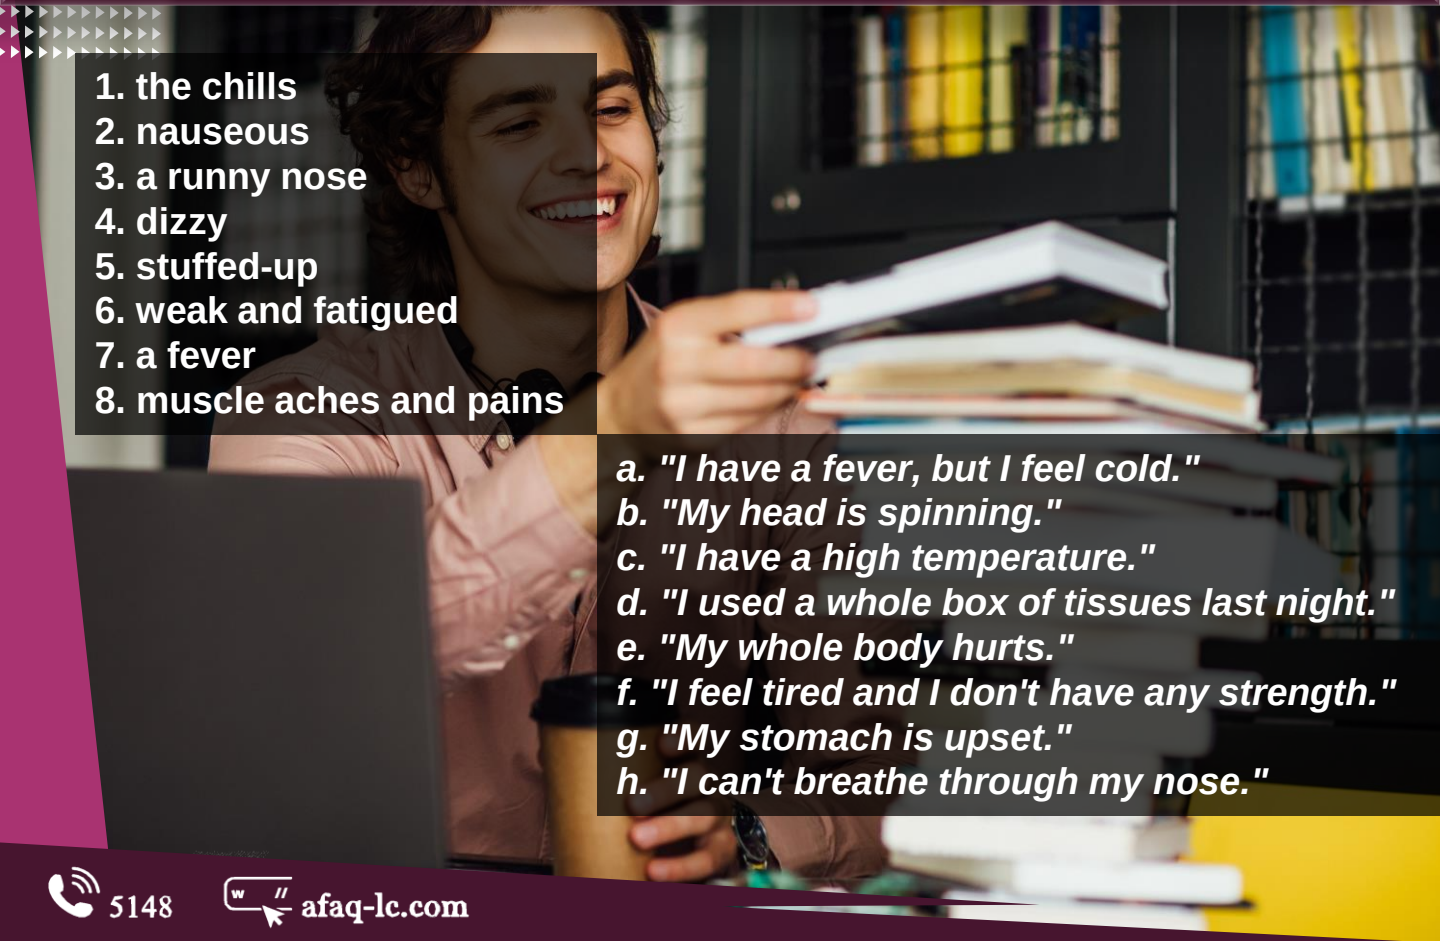

muscle aches and pains,

and/or **a runny nose**?

Other common symptoms include a cough, a sore throat, and a headache. If you have some or all of these symptoms, talk to your doctor right away. Don't go back to work or school until you are better!

Have your Ss do the task for a couple of minutes. Then check the answers in class.

MATCH THE FLU SYMPTOMS TO PATIENTS' STATEMENTS.

1. the chills
2. nauseous
3. a runny nose
4. dizzy
5. stuffed-up
6. weak and fatigued
7. a fever
8. muscle aches and pains

a. "I have a fever, but I feel cold."
b. "My head is spinning."
c. "I have a high temperature."
d. "I used a whole box of tissues last night."
e. "My whole body hurts."
f. "I feel tired and I don't have any strength."
g. "My stomach is upset."
h. "I can't breathe through my nose."

and/or **a runny nose**?

Other common symptoms include a cough, a sore throat, and a headache. If you have some or all of these symptoms, talk to your doctor right away. Don't go back to work or school until you are better!

Have some oral practices by using one the strategies below:

1. Providing oral definitions and having your Ss guess the word.
2. Providing contexts and having your Ss guess the word.
3. Providing synonyms or opposites and having your Ss guess the word.

GUESS THE WORD!

Have the Ss do the task in their breakout rooms.

D PAIRS Brainstorm the best ways to treat the symptoms in 1B.
