afaq-lc.com

Have your Ss do the task for a couple of minutes. Then check the answers in class.

Match the words with the definitions.

a diesel generator - a hydroelectric dam - an underrepresented community - an infrastructure project - kinetic energy - noxious fumes - a diverse background

1. a combination of a fuel-powered engine and an electric engine
2. a plan related to the basic systems and structures that a country needs, for example, roads, hospitals, and telephone systems
3. variety in family, education, previous work, and other experiences
4. a human-made structure used to control a river and generate electricity for power
5. a type of power that is caused by movement, or relating to movement
6. a smaller percentage of a larger population that often does not have power or influence
7. a strong-smelling gas or smoke that is harmful or poisonous
8. a country without much money or industry, but that is working to improve life for its people

Teach the challenging words to your Ss. Then play the audio to practice the pronunciation.

B ▶05-14 **VOCABULARY** Match the adjectives with the nouns. Then listen and check your answers.
